SAMIR ABDALLA
Fullstack Web Developer

samir.os.abdalla@gmail.com | + 1 (909) 815-1660 | samirosabdalla.dev | Github | LinkedIn

EDUCATION

BS, Mathematics of Computation   **Los Angeles, CA**
University of California Los Angeles

EXPERIENCE

Cluster
- Built a web app for users to manage their groups and the tasks in those groups
- Designed features such as an inbox system for users to send invites to one another, sleek tables to easily maintain the state of any group or task, a comment system for users to communicate about tasks and more.
- Technologies used: React, NextJS, MongoDB, Typescript
- Github repo: https://github.com/SamirOsAbdalla/cluster

PokeStore
- Built a web app for users to peruse through a catalog of pokemon allowing them to buy or to save their favorites for later
- Maintained app-wide state with Redux through the use of a cart
- Designed an account system where users can easily manage their information as well as keep track of which pokemon they have favorited
- Technologies used: React, Redux, NodeJS, Express, MongoDB, Typescript
- Github repo: https://github.com/SamirOsAbdalla/pokeStore

SKILLS

- React | NextJS | TypeScript | NodeJS | Express | Redux | MongoDB
